Washington Cap-and-Invest Program
Auction #14 June 2026
Summary Report

Issued on June 10, 2026

Background

Ecology held an auction of allowances on June 3, 2026. The auction included a current auction of 2024, 2025, and 2026 vintage allowances, and an advance auction of 2029 vintage allowances.

Prior to today's certification of Auction #14, Ecology staff and the independent market monitor evaluated bids and determined that the auction process and procedures complied with the requirements of the Washington Regulation. The Market Monitor made the following determination:

> The Market Monitor found that the auction was cleared consistent with the auction clearing rules in the regulation and appropriate economic logic. The Market Monitor confirmed the clearing price and clearing quantities by qualified bidder. The auction algorithm correctly applied requirements of the regulation covering the bid guarantee. The Market Monitor did not observe any breaches of communication protocols.
>
> The Market Monitor recommends Ecology approve the June 2026 Auction results.

The Financial Services Administrator will distribute auction proceeds to the State of Washington and to consigning entities after all qualified bidder payments are received. Ecology will release information on July 1, 2026, in the Auction Public Proceeds Report, providing the final amount of proceeds generated from Auction #14.

Auction Results

All current vintage allowances offered for sale by Ecology were sold at a settlement price of $64.56 per allowance. All future vintage allowances were sold in the advance auction at a settlement price of $30.00 per allowance.
